Solutions

Group Operational Sustainability helps to drive our winning sustainability agenda

Internal (Scope 1 & 2)
Buildings, company cars, own fleet

External (Scope 3)
Subcontracted transport & other value chain

DSV's carbon footprint 2022

0.4 million
Tonne CO₂

15.5 million
Tonne CO₂

Science-based targets 2030*

50%
Reduction of absolute scope 1 and 2 emissions in our own control

30%
Reduction of absolute scope 3 emissions from our value chain

Examples of planned initiatives

DSV Energy

Company cars

Buildings

Road Transport
(Innovation – Truck technology)

Air & Sea Transport

Sustainable Fuel Offering

Business Travel

Waste Management

*Updated science-based target baseline after fully integrating GIL data – announced in connection with annual report 2022 on 2nd Feb 2023

15,500,000-ton CO₂

Scope 3 split by transport mode

Green Logistics

Your sustainable way forward

Green Logistics: **A set of solutions** that reduce the carbon footprint of your supply chain.

Track and trace your impact

CO₂ Reporting offers you the insights and analysis to drive reductions of your supply chain emissions.

Measure your footprint

Rethink your logistics

Green Supply Chain Design & Optimisation helps you improve both your logistics and carbon footprint.

Optimise and Reduce

Fuel your green transition

Sustainable Fuel Offerings let you reduce emissions without changing your operations.

Collaborate on sustainable fuels

Compensate your carbon footprint

Carbon Offsetting allows you to invest in environmental projects to compensate for your CO₂ emissions.

Offset for carbon neutrality
